### About Innovarum

We are INNOVARUM ([www.innovarum.es](http://www.innovarum.es)) a innovation consultancy firm founded in 2013 and based in Madrid. We assist entities operating in the agri-food sector and the bioeconomy in shaping, writing, and managing their R&D and Innovation projects. We mainly work with start-ups, SMEs, large companies, Universities, Research and Technological Centres from across Europe. Currently, we take part in 8 EU projects. Our job is highly interesting, challenging and creative!

**We seek for candidates eager to get engaged with innovation, passionate about agri-food industry, who can work closely with clients, colleagues, and project partners, to meet tight deadlines.**

### What we offer you

1. A position located in Madrid with a competitive salary range (fixed wage + bonus).
2. A professional path full of potential that supports ethical and environmentally sustainable projects.
3. A young, thriving, and international environment where individual actions and ideas are always valued.
4. Ample room for professional and personal growth: we are now embarking into an exciting new development phase!
5. Enjoyable and comfortable work environment: flexible working schedule, remote work opportunities and a well-connected modern office space.

### Description of the position and its duties

We look for a person with a junior profile to write a project proposal. This includes technical benchmarking of the proposed solution against alternative technologies, elaboration of market studies and business plans, development of a work plan, etc. **Your daily work will involve proposal conceptualisation, proposal writing, first-hand communication with clients and collaborators (Start-ups, Large companies, Research centres, Universities...), as well as with the European Commission or other funding bodies, and eventually travel to meet partners and have working meetings.**

#### MANDATORY TECHNICAL SKILLS

1. Experience in a technical position involving the **writing of reports**, scientific papers, etc.
2. **Technical University degree** at Master level: preferably Agricultural engineering or related.
3. Full English & Spanish command is **MANDATORY (C2 / Native speaker)**, both oral and written. **Refrain from applying if you do not fulfil this!**
4. **Managerial skills:** able to organise all kinds of information, focused on the results, versatile, proactive, team player and competitive person.
5. **International experience**, professional and/or educational.

#### OTHER DESIRABLE SKILLS

6. Experience in EU project proposal writing/management (H2020, BBI JU...)
7. Experience in grant managing: technical and financial reporting.
8. Background in business & economics and experience in team coordination
9. Knowledge about R&D and innovation public funding structure.
10. Other languages.
